

ESMO-Congress, Oct 07-11, 2016 - Copenhagen, Denmark

The annual ESMO congress is the premier scientific platform to present your oncology research and as such, the ultimate learning experience for congress attendees. Across disciplines and across cultures, ESMO bridges the gap between researchers, clinicians and patients and unites all stakeholders focused on finding the most effective cancer treatment solutions available today. Oncoletter presents the highlights of the congress such as the most important late breaking studies, slides, interviews and statements.
