

ESMO14: Precision Medicine in Cancer Care

[Bild:©Lucia Uccellatore from Italy](#)

ESMO 2014 promises to be an exciting meeting, merging state-of-the-art oncology with the latest breakthrough discoveries, from cost-effective anti-cancer treatments to best supportive care...

Among the numerous studies presented, the ESMO Press & Media Affairs Committee has selected some topics and abstracts for presentation to the press due to their particular importance for clinical practice and patient care.

These presentations are videotaped by Oncoletter and posted as webcasts immediately after presentation at the press briefing together with video comments from experts in the field.
